Perfect Privacy

Electronic Frontier Foundation's 2015 Annual Privacy Report

Among the Internet Access Providers on the Electronic Frontier Foundation's report, Sonic alone earned a perfect five out of five stars. No other Internet Access Provider earned more than three stars.

Your private information passes through your Internet Access Provider. So, although a number of web services companies also earned a perfect score — Apple, Adobe and Dropbox among them — your Internet Access Provider's privacy practices are critical.

Safeguard what's important to you and your business: switch to Sonic.

Sonic's Five-Star Score

WE'VE GOT YOUR BACK

When you use Sonic as your Internet Access Provider, we work hard to guard your privacy. Sonic instituted strong privacy practices when the company was founded more than 20 years ago and we've had your back all these years.

Who Has Your Back?

PROTECTING YOUR DATA FROM GOVERNMENT REQUESTS

	Follows industry-accepted best practices	Tells users about government data demands	Discloses policies on data retention	Discloses government content removal requests	Pro-user public policy: opposes backdoors
